

UNA DE GATO

Una de Gato (*Uncaria tomentosa*) – also known as Cat's Claw

Item #:00695 (bulk) 00696 (extract)

Organic – 00692 (bulk) 00697 (extract)

Source: Peru

Part Used: Bark

We perform Third Party Testing on all our herbs to ensure we are providing you with the highest quality available.

Una de Gato, or Cat's Claw, is a large vine that gets its name from the claw like thorns that grow along the vine allowing it to climb high up in to the canopy of the Amazon rainforest.

Cat's claw (*U. tomentosa*) has been used by the Aguaruna, Asháninka, Cashibo, Conibo, and Shipibo tribes of Peru for thousands of years. Traditionally the tribes used Una de Gato to treat asthma, inflammations of the urinary tract, arthritis, rheumatism, gastric ulcers, menstrual irregularity, fevers, abscesses and gastritis. It was also used as a kidney cleanser, to treat deep wounds, to control inflammation, as well as for internal cleansing.

The plant contains Pentacyclic oxindole alkaloids (pteropodine, isopteropodine, isomitraphylline, uncarine F), tetracyclic oxindole alkaloids (rhynchophylline, isorhynchophylline), quinovic acid glycosides, procyanidins, triterpenoid saponins.

We prepare our Una de Gato Extract from the dried bark of the Una de Gato plant sourced directly from Peru.

DIRECTIONS:

Use 10-15 drops once or twice a day in water or as recommended by a health care practitioner.

INGREDIENTS:

100% Una de Gato (*Uncaria tomentosa*), distilled water and organic grain alcohol (35-45%)
