# MAYTENOL™

## Liquid Compound

### General Information

#### **This proprietary blend of herbs consists of:**

- Chuchuhuasi (*Maytenus macrocarpa*)- A very large Amazonian rainforest tree that grows up to 90 feet high. The reddish bark has been used for centuries as a general tonic.
- Feverfew (*Tanacetum parthenium*)- A flowering plant in the Daisy family (Asteraceae).
- Vassourinha A.K.A. "Ñucño Pichana" (*Scoparia dulcis*)- A species of flowering plant in the Plantain family.
- Cat's Claw A.K.A. "Uña de Gato" (*Uncaria tomentosa*)- A woody vine with claw-shaped thorns that grows wild in the Amazon highlands of Peru and other areas of South and Central America.
- Rosemary (*Rosmarinus officinalis*)- A rounded, evergreen shrub with aromatic, needle-like, gray-green leaves and tiny, two-lipped, pale blue to white flowers.

**All our herbs undergo Third-Party Laboratory Testing to ensure accurate species identification and the highest quality available.**
