# TRANQUIL ABILITY™

Liquid Compound

## General Information

**This proprietary blend of herbs consists of:**

- Mulungu (*Erythrina mulungu*)- A Brazilian ornamental tree and medicinal plant native to the cerrado ecoregion in Brazil, South America.
- Tayuya (*Cayaponia tayuya*)- A vine that grows in the Amazon region of South America, in the nations of Brazil, Bolivia and Peru.
- Wild Lettuce (*Lactuca quercina*)- A plant in the Lactuca genus, ingested for its mild effects.
- California Poppy (*Eschscholzia californica*)- An ornamental plant flowering in summer, with showy cup-shaped flowers in brilliant shades of red, orange and yellow.
- Chuchuhuasi (*Maytenus macrocarpa*)- A very large Amazonian rainforest tree that grows up to 90 feet high. The reddish bark has been used for centuries as a general tonic.
- Astragalus (*Astragalus membranaceus*)- A member of the Pea family (Fabaceae). The root is the part used.
- Cat's Claw A.K.A. "Uña de Gato" (*Uncaria tomentosa*)- A woody vine with claw-shaped thorns that grows wild in the Amazon highlands of Peru and other areas of South and Central America.
- Muira Puama (*Ptychopetaium olacoides*)- A shrub-like tree with a slightly pink colored bark. Grows mostly in the Amazon and Orinoco areas of Brazil.

**All our herbs undergo Third-Party Laboratory Testing to ensure accurate species identification and the highest quality available.**
